

Name: _____

Period: _____

Spies: The Second Journey Begins p. 85-89

Reading Guide

1. What is the respiratory system?
2. When a person breathes, where does the air enter the body?
3. What causes a person to sneeze and cough?
4. How does a person make a sound with their voice?
5. Why do people breathe? (what does the body need when they breathe and what do they need to get rid of)
6. When you breathe, do you have to think about it or does your body automatically make you breathe?
7. What happens to the ribs and diaphragm (stomach) when you inhale? When you exhale?
